

Advance Notice of Non Covered Services

Many insurance carriers will only pay for services that they determine to be medically necessary. In many cases insurance only covers services that are for the treatment of illness or injury. Your insurance may deny payment, even though your doctor feels that the service is medically necessary.

At your visit today, it is possible that your insurance company may deny payment for:

Hearing Screen	Stat Lab Results	Urinalysis
Vision Screen	Routine exams	Lipid Profile
Thyroid Function Tests	*Vaccines*	Strep Screen
CBC	Flu Screen	

*Vaccines are typically only covered when they are attached to routine exams. In some cases insurance may deny a vaccine that is given on a regular or sick office visit.

I have been notified by my physician that he or she believes, that in my case, my insurance may deny payment for services rendered at Pediatric Offices at Willow Bend. If my insurance denies payment, I agree to be personally and fully responsible for payment.
